

① If an amount is determined for compensatory damages, is each individually named defendant responsible for the listed amount, or is the listed ^(selected) amount the sum total to be shared equally by all defendants in this case. (i.e. if we list \$1,000, would it be multiplied by 7 parties (defendants) ~~to~~ to equal \$7,000 or remain a total of \$1,000).

② To clarify, how many defendants are involved in this ~~case~~ case? (i.e. Are Dennis Fines and Dennis Highlands two separate defendants?)
